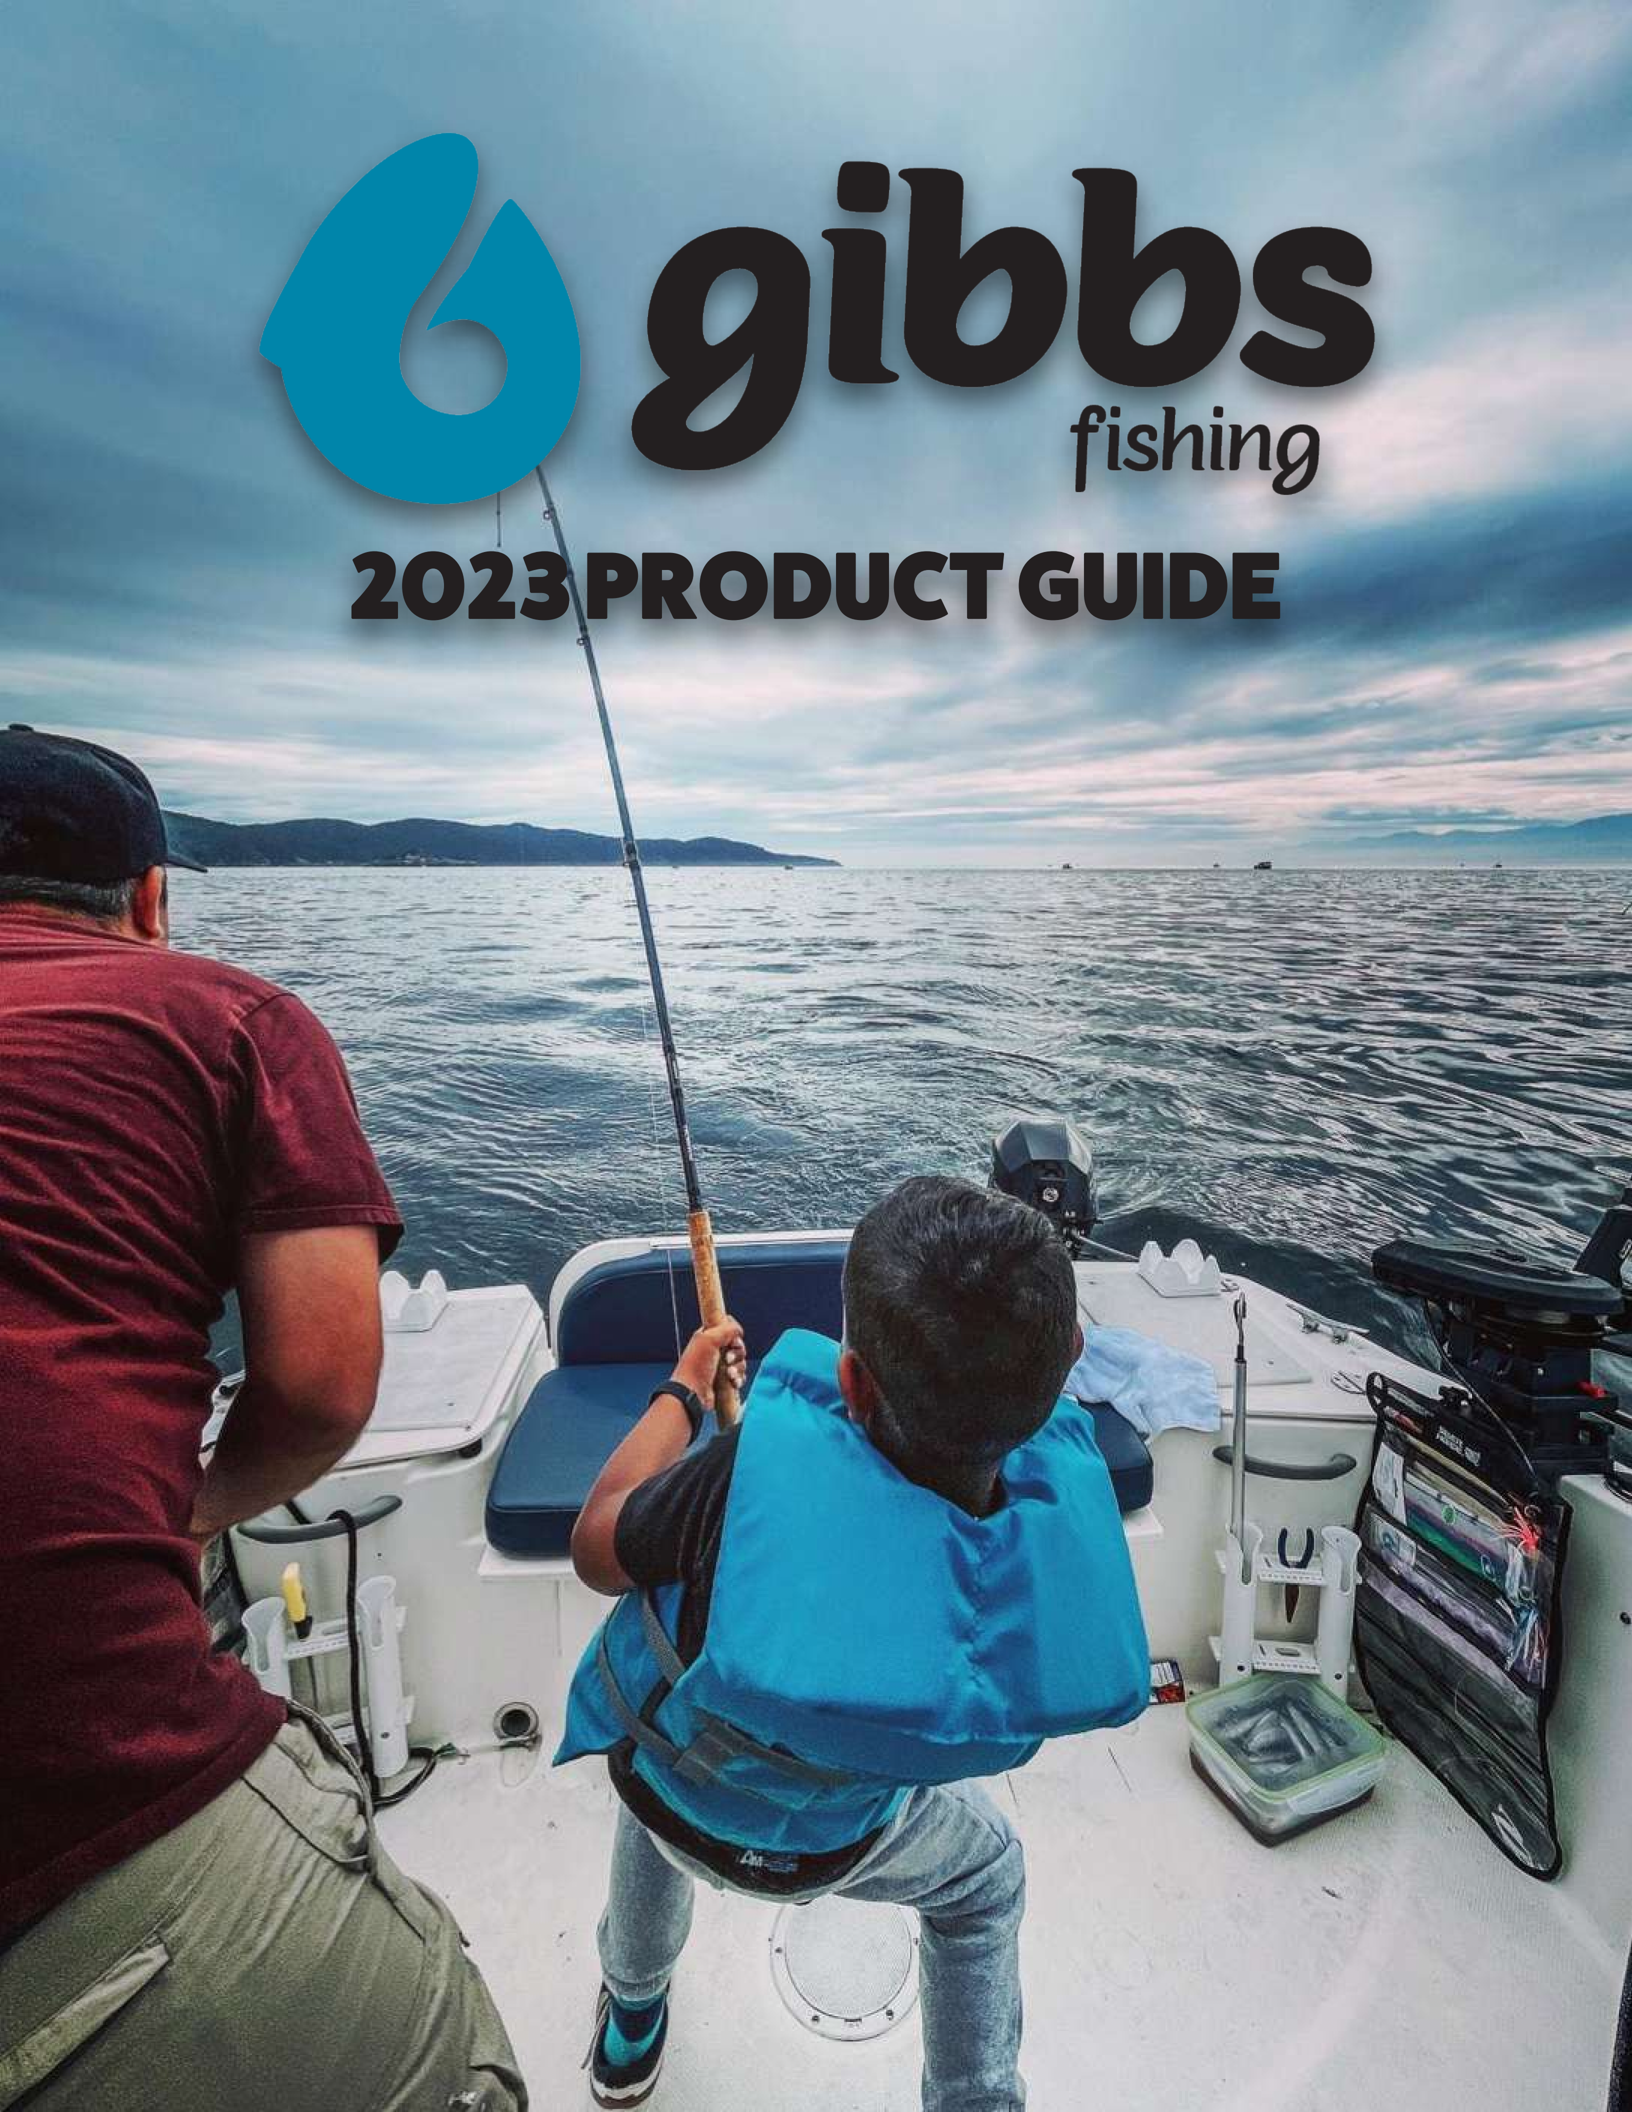
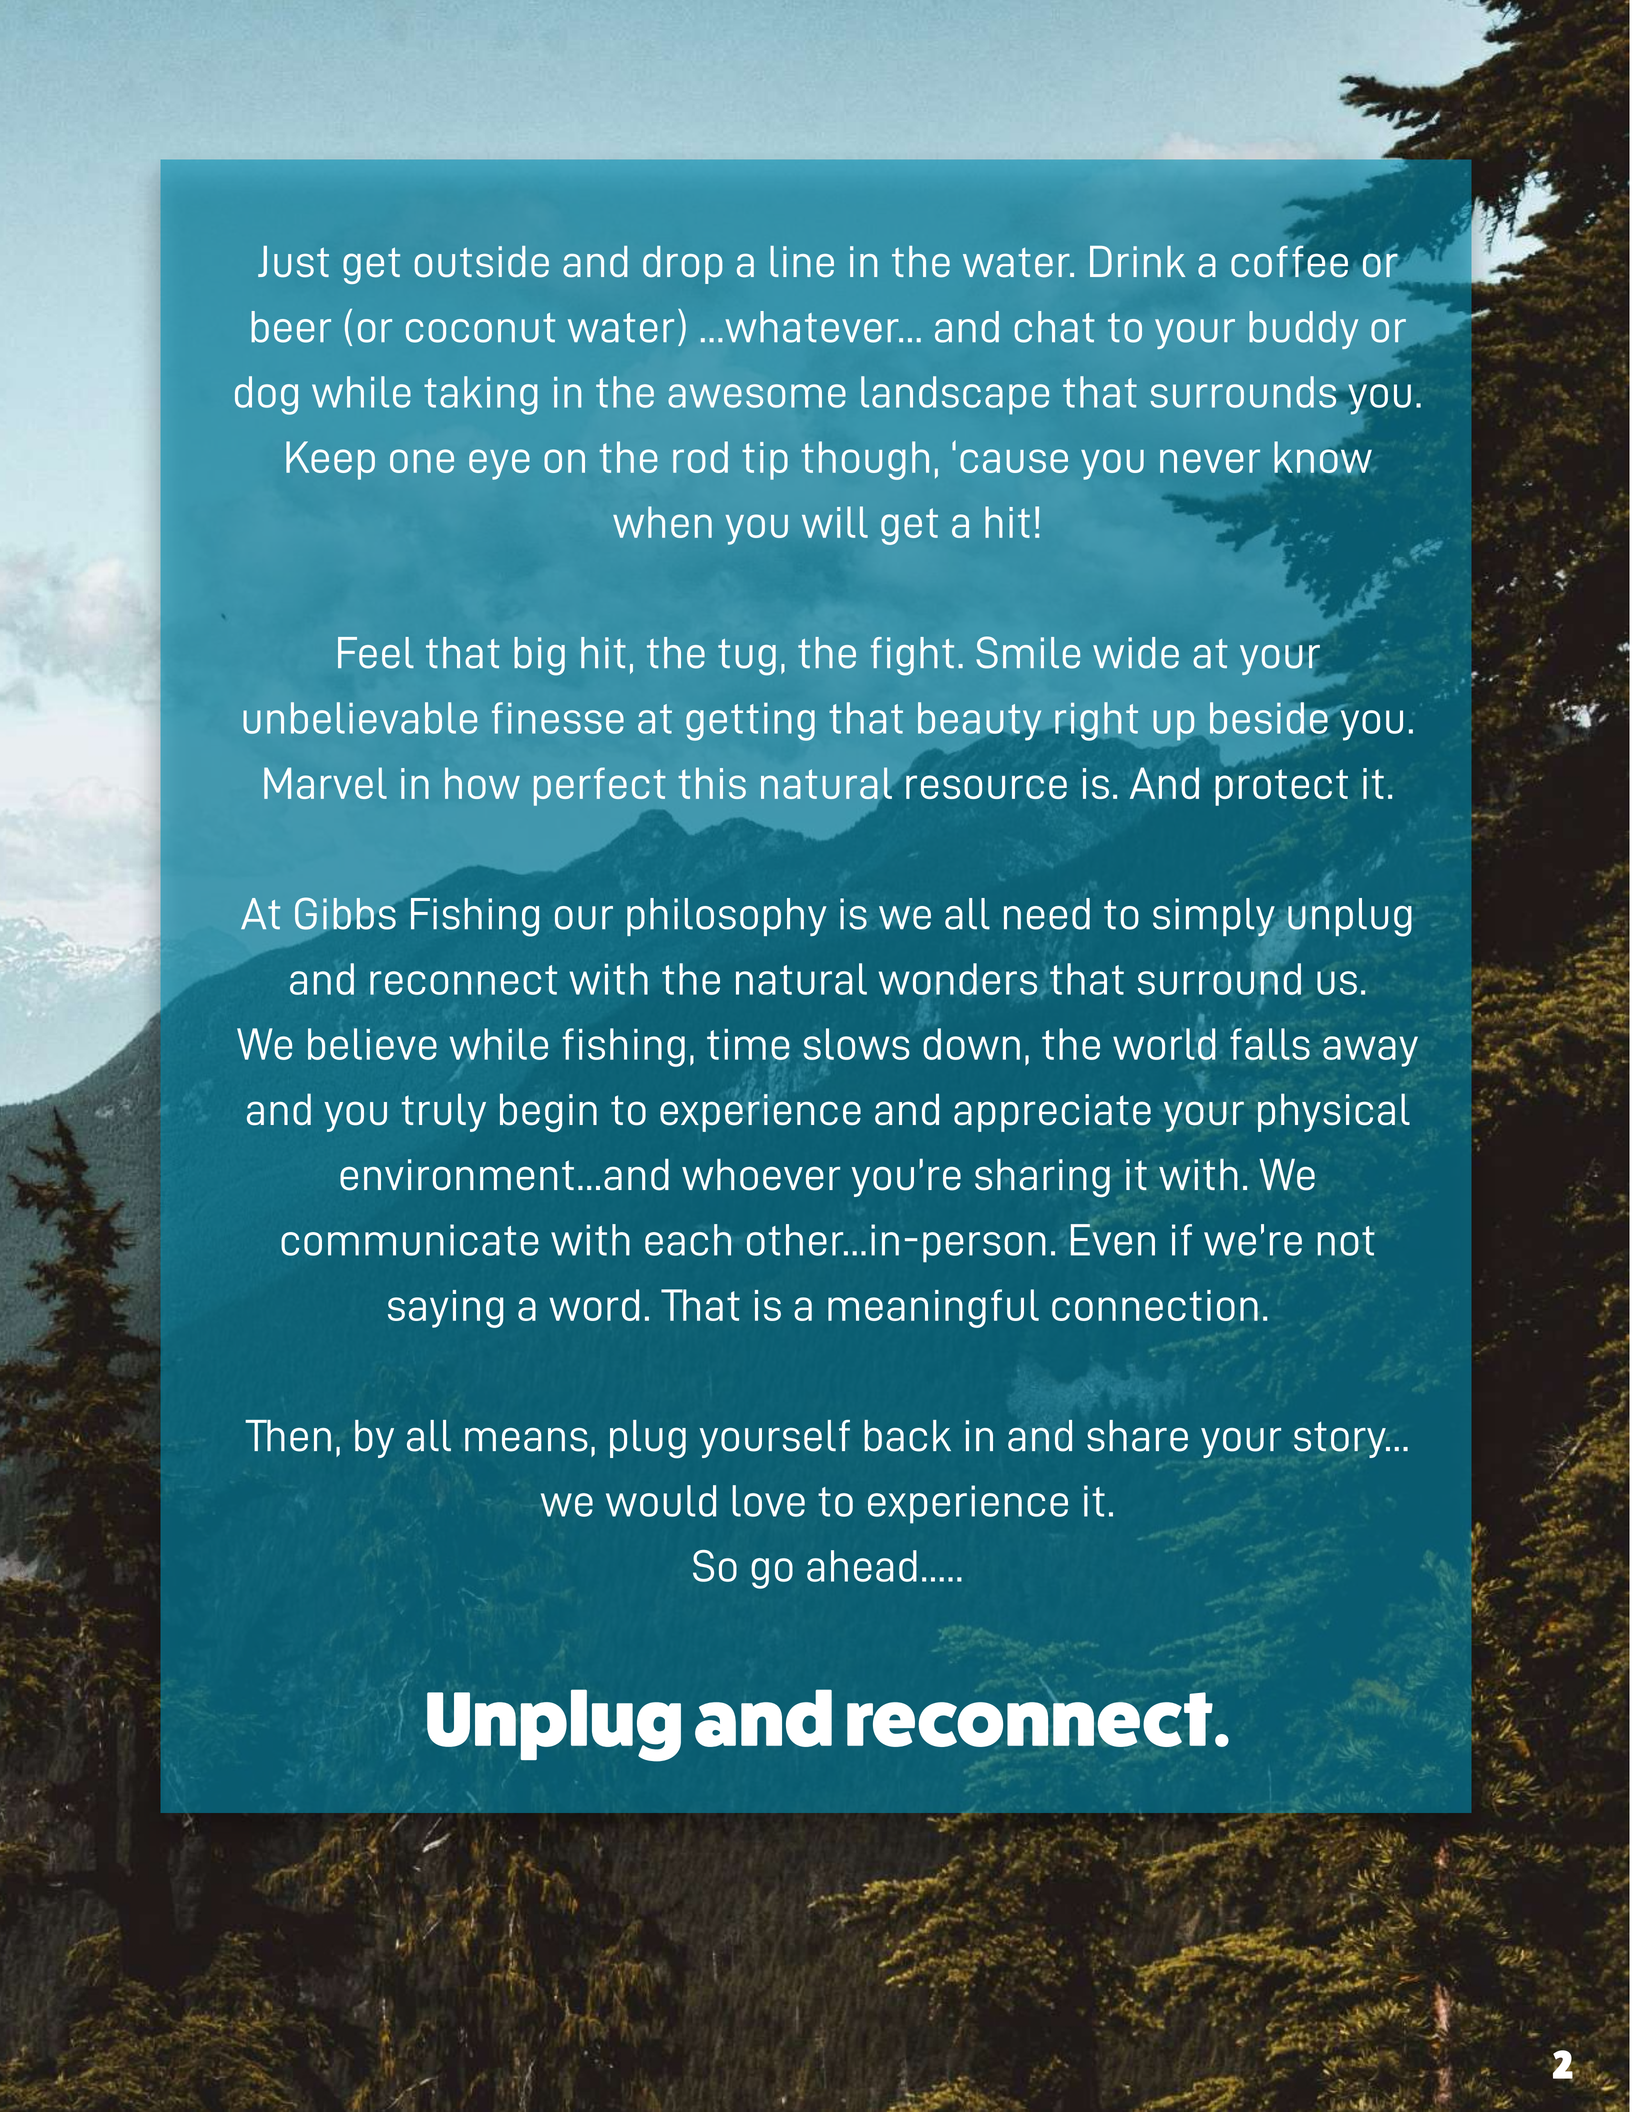
gibbs fishing

2023 PRODUCT GUIDE





Just get outside and drop a line in the water. Drink a coffee or beer (or coconut water) ...whatever... and chat to your buddy or dog while taking in the awesome landscape that surrounds you. Keep one eye on the rod tip though, 'cause you never know when you will get a hit!

Feel that big hit, the tug, the fight. Smile wide at your unbelievable finesse at getting that beauty right up beside you. Marvel in how perfect this natural resource is. And protect it.

At Gibbs Fishing our philosophy is we all need to simply unplug and reconnect with the natural wonders that surround us. We believe while fishing, time slows down, the world falls away and you truly begin to experience and appreciate your physical environment...and whoever you're sharing it with. We communicate with each other...in-person. Even if we're not saying a word. That is a meaningful connection.

Then, by all means, plug yourself back in and share your story...
we would love to experience it.
So go ahead.....

Unplug and reconnect.

Anglers First

We believe fishing is for everyone – from absolute beginners to seasoned pros. It's about filling your tackle box with stories and sharing those moments of wonder with your friends and family. We strive to be your trusted resource and promise to deliver on high quality, innovative products.

Honouring Tradition

At 115 Years young we think we know a thing or two about tradition. We encourage sharing knowledge – where you fish, what you use, & how to use it – and storytelling. We live the culture – we celebrate authenticity and encourage new traditions too. We fish here.

Lifetime Partnerships

We are in it for the long-haul. That takes great partnerships with employees, retailers, supply chain folks, brand ambassadors, pro staff, and you, the customer. Our collective natural resource is also a lifetime partner – we give back. We're here for life.

Gibbs Gives Back

The ability to unplug from our daily activities and reconnect with the natural wonders that surround us is something we should never take for granted.

There are few outdoor activities that have the potential to connect people with such a direct and meaningful way as does fishing. Spending a day on the water with family and friends can be the beginning of memories that last a lifetime. It can be the foundation for strengthening the connection between humans and the environment.

As our society and the environment change, it is important to take steps to protect our heritage and to ensure that respect for our lands and waters, continues to be an important focus for all. It is vital that we maintain our public fisheries and protect our complex aquatic environments. Each year Gibbs Fishing is proud to make significant donations and support initiatives that focus on;

- Rivers, Lakes and Ocean Ecosystems
- Fish Habitat, Restoration and Enhancement
- Hatchery and Net Pen Programs
- Conservation Efforts & Awareness
- Responsible Angling Ethics
- Angling Education
- Marine Awareness & Safety Programs

We are blessed to have access to the wonders of the earth and the natural resources it provides.

We are committed to maintaining and preserving our precious resources for all to enjoy for years to come.

You can't just take – you have to give back.

DOG TAIL DODGER

The Gibbs Dog Tail Dodger is the ideal dodger for Kokanee, Trout, and other Lake fish. These smaller dodgers feature a red eye, moonjelly tails, a ball bearing swivel, and a snap swivel. This "low drag" Dodger pairs up great with spoons, hoochies and a multitude of trolling lures.

INLINE FLASHER

The Delta Inline Flasher is highly effective and versatile. Due to its minimal drag it can be successfully trolled at a wider range of speeds than a traditional flasher. The wide variety of colours work well to attract fish and it comes equipped with the high quality components that you can expect on all Delta products.

ICE GATOR

The Gibbs Gator has always been a popular choice for Ice Anglers, removing the hook and using the spoon as a Flasher with a lure or bait suspended beneath it. The Ice Gator was designed with exactly this in mind. We have removed the hook and replaced it with a Snap Swivel for quick and easy change ups and with help from Industry Professionals, came up with 6 tantalizing colour combinations that feature bright, vibrant and flashy finishes.

DODGER #0

Previously discontinued and resurrected for 2023 due to high demand, the Gibbs # 0 features a full spring brass body, double welded rings, durable nickel plating and high quality swivels. When trolled, the action of this Dodger simulates a school of bait fish and gives your lure a wounded bait fish action. Optimal action is achieved between 2.5 - 3.5 mph.

HIGHLINER

The Highliner Flasher does not just roll or turn, it has an erratic action that also kicks, darts and sways. It provides a lifelike action to any lure while creating vibration. All Highliner Flashers feature high quality Holographic tapes that provide amazing light reflections at all depths, Ultra Violet pigments that help attract feeding fish to your lure and 2 ball bearing swivels ensure smooth action and the ultimate in durability.

NEW!

O'KI 360

The O'Ki 360 Flasher hosts all the same great features as the iconic Big Shooter with an added bonus, a "kicker fin" on the backside of the Flasher. The added fin allows for erratic and inconsistent rolls which compliment any lure or bait you are trolling no matter what speed you are trolling. The unpredictable movements of this flasher drive feeding fish insane!

KINGFISHER II

Developed by O'Ki Tackle to give the impression of fish on the feed making it one of the hottest attractors available. The KF II produces a tight roll between 1 1/2 to 4 mph without any appreciable change in it's tail "swoop" action. All flashers come with 2 Ball Bearing swivels and welded Nickel/Silver rings.

SIDEKICK

The unique design of the Sidekick flasher allows for a slow roll with random and unpredictable kicks, allowing your trailing lure to react in ways no predatory fish can resist! Available in 26 best selling Stinger patterns. 9" design with a wide front and tall rear fin pulls meat rigs more effectively than traditional flashers. The unique flip flop design with L shape fin allows for smooth rotation with unpredictable kicking motions. The Sidekick pairs well with spoons, flies, meat rigs, hootchies and more!

KIT-A-MAT

The Gibbs Kit-A-Mat is designed specifically to produce in large rivers and lakes. Made of heavy gauge brass for extra casting distance and depth, the Kit-A-Mat has a wobbling action that game fish find impossible to resist. The Kit-A-Mat is fitted with top quality split rings, swivel and a red back tab.

MINI G

The smallest and mightiest member of the G Force family. The Mini G has been tuned and tested to be the "go to" lure for Trout, Kokanee, and all types of fish feeding on smaller sized bait. Great action and results can be expected from the Mini G.

SKINNY G

The Gibbs Skinny G is a light weight trolling spoon. It mimics small bait fish and has an erratic wounded action that changes frequently. It features a lifelike eye, welded rings, and a Mustad Ultra Point hook. The Skinny G is available in glow and nickel finishes with 20 vibrant colors. The spoon is ¼ oz and can be trolled at speeds from 2mph and faster.

G FORCE

Gibbs G Force Spoons were specifically developed with two things in mind – imitate natural bait and catch fish. These spoons were tested, tweaked and tuned to perform a show of irresistible and erratic movements to scare up bites from even the most cautious predators. At Gibbs we take Glow seriously, what do you think the "G" in G-Force Stands for? For a potent combo of light and movement you just can't compete with the G-Force!

TITAN

O'ki Titan Spoons offer a strong fluttering action and are designed to be trolled at speeds higher than 2 mph. Made with a solid Brass Body and finished with a hard Nickel Finish. All Spoons come equipped with a Nickel "Clacker" on the business end for added action, noise and vibration. The heavier design of the Titan Spoon makes them a perfect candidate for Casting as well as trolling.

MAGNUM

LURE SIZE: 4.75"

WEIGHT: 3/16 OZ.

TREBLE HOOK SIZE: #2/0

The Magnum Spoon curved profile wobbles and flutters through the water, putting out maximum flash and the subtle vibrations that trigger all cold-water species to go on a feeding binge. Great for all species of trout and salmon as well as pike, bass and walleye.

SCORPION

LURE SIZE: 2.25"

WEIGHT: 1/5 OZ.

TREBLE HOOK SIZE: #5

The Scorpion Spoon is productive anywhere small baitfish are present. The Scorpion is built with high-quality materials and sports a brilliant, high-flash finish, while its curved profile creates a fluttering wobble action that triggers almost all game fish species to strike. Stinger's Scorpion Spoon is a Great Lakes standard for walleye and steelhead, but also effective for casting and vertical jigging.

SCORPION
SPOON HARNESS

The Stinger Scorpion Spoon Harness is rigged to add both properties of fishing with a spoon, and a crawler harness. The Spoon and crawler combo has proven to be effective for trolling for walleye at faster speeds. This harness is snelled and crimped using a 13 pound test coated wire with VMC hooks.

KINGFISHER

Produced in the USA, the Silver Horde Kingfisher spoon combines flashy colours with a fish tempting wobble to catch the eyes of patrolling predators. These lightweight spoons are effective on a large range of species in both salt and fresh water and come equipped with welded rings and sticky sharp hooks.

COHO KILLER

The Silver Horde Coho Killer is a small metal spoon lure designed for coho and salmon fishing applications. Its unique bend and shape creates a lifelike action that mimics that of a baitfish for enticing aggressive strikes. Although designed for Salmon, this lure has quickly become a go-to for Freshwater Anglers. The Coho Killer is 3"in length and comes rigged with a single hook and realistic 3D eye.

GATOR

With its tantalizing wobble, the Gibbs Gator imitates the erratic swimming motion and flash of a small baitfish. Designed for fast action, the Gator is great for all game fish and ideal for either trolling or spin fishing. The many hot color patterns allow the angler to match the desired baitfish, and offer a "meal" for any larger, predatory fish. It's time tested quality design ensures repeated fishing success. Look for the Gator in the most heavily prized tackle boxes.

TEASER HEAD ACCESSORIES

PIN PACKS

RD-AREDPINPK

RD-AGLOPINPK

Replacement pins for Rhys Davis Anchovy Special, Bulletroll, Super Herring and Large Teaser Heads. Available in Classic Red or Glow. Each package contains 10 pins.

Glow in the dark Anchovy Bait holder pins. Works with Lighthouse Baitholder heads. Each package contains 15 replacement pins.

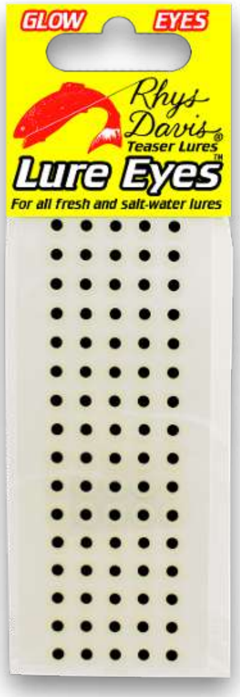
LH-GLPIN15-001

TUNING WIRE

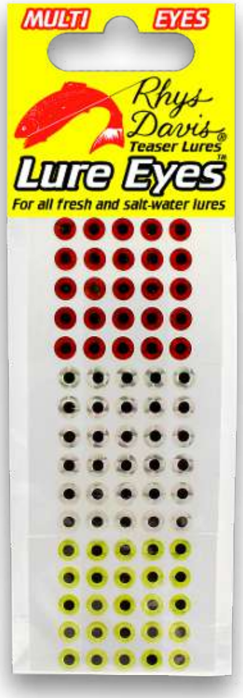
Tuning Wire allows you to customize and perfect the bend in your bait to achieve the perfect roll. The wire fastens to the pre-drilled holes located on the flat side of the Teaser Head and is then inserted into the bait.

RD-AAWIREPK

LURE EYES



RD-ALEGL



RD-ALEMU

Add Lifelike eyes to your favorite Teaser Head, Spoon or Lure for added flash and attraction.

Available in Glow and Multi Colour.

BIG BITE HERRING STRIP

The Rhys Davis Big Bite Strip is a perfect alternative to the real deal. Bite after bite these strips will outlast, perform and continue to impress. Designed to pair up with the Rhys Davis Large Teaser.

ZAK TACKLE

Perfect for Fresh and Saltwater fishing, the Zak Wally Whale Squid has the action you need to take on a variety of species. Each squid is made with premium resins that keep the lure lightweight for realistic swimming action that fish just can't resist. They're even durable enough to hold their own against a heavy hitting trophy fish. Each lure is pre-rigged on 40lb line with 4/0 sticky sharp hooks, so it's ready to fish right out of the package!

JUGHEAD 4.5” HOOTCHIE

This Hootchie Rig is equipped with a Jughead Shaker head, a hard plastic helmet with a flat bill for extreme and erratic movements. This rig can be used with or without a Flasher as it does not require towing assistance for action. Pre rigged with 2 x 4/0 Mustad Octopus Hooks and 6 feet of premium 40 lb. mono. The 4.5" hootchies feature high quality plastics that remain soft and flexible in order to provide a lifelike action when trolled at slow or fast speeds behind a dodger or flasher.

JUGHEAD 4.5” NEEDLEFISH

The Jughead Needlefish Rig has been made with high quality components to ensure you are getting a great fishing lure. For saltwater of freshwater trolling the Needlefish rig works well with leader lengths of 28" to 46" from the flasher. Salmon, trout, halibut, bass, pike, walleye, steelhead and all other predator fish can't resist the action when using a Jughead bait holder. Pre rigged with 2 x 4/0 Mustad Octopus Hooks and 6 feet of premium 40 lb. mono.

JUGHEAD NANO 4 PACKS

Nano Jugheads are great for adding action to your bait and lures. You just have to insert a Nano Jughead in front of a small plastic bait, small hootchie, fly, worm or any other type of bait that you want to bring to life and a Nano Jughead will take care of the action. Nano Jugheads are fantastic in front of Needlefish hootchies and small squirts. They can be used in fresh or saltwater and give an irresistible action to your lure.

LIGHTHOUSE LURES

If you have never heard of an electronic squid lure before you might just be surprised at how well they work for a variety of bottom fish species. Lighthouse Lures is the leader in producing state of the art electronic fishing lures. For years Lighthouse Lures has been testing a variety of different patterns and colour variations to develop the worlds best electronic lures. The Electronic Squid Lures are great for all sorts of game fish including Halibut, Snapper, Yellow eye, Grouper, Calico, Lingcod, Amberjacks just to name a few. You can't go wrong with this lure for any large bottom dwelling fish. You can fish this lure on a spreader bar, jig with it, cast, or even slow troll. For the best effect add scent or a piece of real squid or anchovy to the hook and you are sure to entice a big fish! Every design is coupled with a unique water activated L.E.D. flash type that has been proven to work with that colour. Available in 7" and 9" sizes and 3 proven colours.

MUDRAKER

The Mudraker is ideal for jigging bottom fish. Three unique features make the Mudraker an amazing fish catcher. The sleek, chrome plated, hexagonal body of the jig will sink rapidly, even in heavy tidal conditions. The harness holds the skirt and hook beside the body and off the bottom, reducing snags. The scent chamber can be used to attract species over a greater area.

HALI HAWG

Hands down the most popular Halibut lure on the West Coast. This extra Large grub comes with multiple purposes; you can use them with Jig Heads and bounce them off the bottom of the Ocean, or you can suspend them from your Halibut spreader bar with a bit of added bait. Either way you fish these, the fish are going to find them. The Hali Hawg is made from highly durable plastic and is injected with our top secret "Bio-X" Scent.

FLAT FALL JIG

LIGHTHOUSE LURES

Flat Fall Jigs are ideal for use drifting from a boat. Drop the jig to the bottom, then crank it up 30 feet and let it free spool back down to the bottom and repeat OR cast the Jig and let it fall while free spooling, wait for the bite, then jerk and repeat. These center balanced jigs fall with a wobbling action in a horizontal postition, keeping you in the strike zone for a longer period of time. Available in 80g and 120g in a productive variety of patterns.

CURLY TAIL

DELTA TACKLE

The Curly Tail is a versatile worm like plastic bait with a long, soft "J" shaped tail. Used in many different salt and freshwater applications but most commonly as an attachment to lead bullet jigs. The shape and soft nature of this plastic bait allow it to flutter and swim wildly, creating a lifelike action and subtle vibration that is tough for fish of any species to resist. Made from durable plastics and designed to hold up hit after hit.

DOUBLE WEDDING BAND

The Gibbs Double Wedding Band is a multipurpose little spinner that is a must have for trout, kokanee, bass, whitefish, walleye and other gamefish. An absolutely irresistible sparkle reflects from the bowl of the two highly polished Indiana blades as they revolve around two genuine European rhinestone rondelles. Double Wedding Bands are sized according to hook size and are available in two colours.

SLIP WEIGHT SINKER

Often referred to as the "Poor Man's Downrigger", Slip Weight Sinkers make an excellent substitution for this pricey piece of hardware. These weights are designed to slip and clip onto your mainline and then release and slide down to your flasher or lure for ease of fight. The Slip weight sinker can be clipped in at any desired spot and won't get in your way when you have a fish on the line.
